BASIC INFORMATION FOR O.F. KB PUBLIKUM – MBI 10, AND REPORT FOR THE PORTFOLIO STRUCTURE (as of 30/06/2019)

| | |
|-----------------------|----------|
| Date of establishment | 1.4.2017 |
| Currency | MKD |

Investment policy and objectives

Fund objective is to replicate Macedonian stock exchange index MBI 10. It will have dominant exposure to equities of Macedonian issuers. The funds are invested in 10 most liquid shares, closely following the stock exchange trends in Macedonia. In order to achieve its investment policy and objectives the Fund will use passive investment strategy while Macedonian Stock Exchange index MBI 10 will be used as a benchmark for comparing fund returns. The fund management company will adjust the exposure to single issuers comprising MBI 10 if there is a change of structure of the index MBI 10 as a result of periodical revision of the index by Macedonian stock exchange index committee.

The selection strategy of financial instruments, which will be a building block of Fund's portfolio, carries out high level of risk usually associated with equity funds.
